8. MINIMUM MEDICAL STANDARD

8.1. Introduction

As from September 1, 2015, the following terminology will be used by World Rugby when describing medical positions at World Rugby Tournaments. This terminology will be used for consistency in Host Union Agreements (HUA) and also Terms of Participation (ToP) documents which are the legal documents used by World Rugby to outline service expectations and responsibilities at Tournaments.

World Rugby recognises that differences in Tournament medical coverage exists and that financial and medical restrictions on Host Union will also influence services supplied during a Tournament but this terminology should be applicable to all World Rugby Tournaments. It is also acknowledged that one doctor may be responsible for more than one position outlined in this document.

The different medical terms include:

- ✓ Tournament Medical Manager
- ✓ Match Day Doctor
- ✓ Immediate Care Lead
- ✓ Tournament Team Doctor – specifically applies to SWS Tournaments
- ✓ Immediate Care Team

Also outlined in this document are minimum medical standards that should be applied by Host Unions.

8.2. Medical treatment terminology

The following terminology should be adopted for consistency across all World Rugby and Elite Tournaments:

8.2.1. Tournament Medical Manager (TMM)

- ✓ This person is ultimately responsible for the planning, co--ordination and governance of medical services provided by tournament medical staff to players, officials and team management during the Tournament (both at the venue and at team hotels).
- ✓ The person appointed to this position must have a medical or healthcare professional qualification and should have experience working at an international Tournament or Competition.
- ✓ He/she may or may not personally deliver medical services in the other roles listed below (Match Day Doctor and / or Immediate Care Lead).
- ✓ The name and contact details of the holder of this role must be made clear to participating teams in advance of the tournament.

8.2.2. Match Day Doctor (MDD)

This person is responsible for decisions on Match Day regarding replacement for blood and head injury.

Ideally in elite tournaments this role should be separate from the Immediate Care Lead and where practical be independent of country and team.

- In Tournaments where the provision of medical staff is limited the Immediate Care Lead and the Match Day Doctor may be the same person. This role or combined role may also be held by the Tournament Medical Manager (TMM) if the TMM is appropriately qualified.

This name and contact details of the holder of this role is typically made clear to participating teams before game day.

- He/she may or may not personally deliver medical services in the other roles listed below (Match Day Doctor and/or Immediate Care Lead).

The name and contact details of the holder of this role must be made clear to participating teams in advance of the tournament.

8.2.3. Immediate Care Lead

- This person is responsible for coordinating and providing on--field game day immediate medical care services and onward referral to secondary care if appropriate at the Tournament.
- The person(s) covering this position must be a medical practitioner and as a minimum have a Level 2 ICIR or equivalent accreditation.

This role may be held by the Tournament Medical Manager if they are a medical practitioner.

The name and contact details of the holder of this role is typically made clear to participating teams before game day.

8.2.4. World Rugby Tournament Team Doctor

- This person provides team doctor services during Tournaments to all teams, away from the match/tournament. They can also provide off--field game day support if requested by the Team Physiotherapists.
- It is expected that The Tournament Team Doctor will liaise with the Immediate Care Lead regarding the appropriate follow up of injured/ill players once they depart the tournament medical facilities.

The name and contact details of the holder of this role must be made clear to participating teams in advance of the tournament.

8.2.5. Immediate Care Team

The Team must provide a list (not specific names) of all other available medical and paramedical staff (including the pitch retrieval team) providing on and off--field medical services at the game/tournament.

8.3. Minimum Game Day Medical Coverage

The minimum game day medical coverages should be:

**It is recognised that the legislation in some host countries prohibits the availability of an ambulance at sporting stadia and in these circumstances emergency services capable of providing advanced life support services and spinal evacuation services must be available at the ground.*

As a guide to minimum standards at elite World Rugby Tournaments, the following capabilities must be covered by attending staff at matches. These requirements may be provided by an attending ambulance or pitch side specialist coverage:

- ✓ Medical and surgical supply company
- ✓ Oxygen supply company
- ✓ Massage services
- ✓ Closest hospital to hotel and training grounds
- ✓ Closest swimming pool to hotel and training grounds

9. ANTI-DOPING

The Anti-Doping program and procedures to be applied at the Tournament are set out in these Terms of Participation in Section 17 and are based on World Rugby Regulation 21.

Please refer to the following link to consult the regulation: <https://www.worldrugby.org/handbook/regulations/reg-21/reg-21>

You can consult the entire World Rugby Rules on our website (<http://www.rugbyafrique.com/information-and-rules/>).

10. DISCIPLINARY PROCEDURES

10.1. Introduction

This disciplinary section provides guidance on the role of the citing commissioner (CC) and the process of decision-making by the Judicial Officers. It also provides clarification on the parameters of the work of the CC. It outlines advice and recommendations on good practices to be adopted by match officials (and other stakeholders in the game), to enable the CCs to carry out their responsibilities in a fair and balanced manner.

This disciplinary section refers to the following resources:

- Regulations 17 and 20 of World Rugby;
- The Code of Conduct;
- Rule 9 of the Rules of the Game;
- The rules and manuals for World Rugby tournaments; and
- The Rule 17 Penalty Table from World Rugby for all Rule 9 infractions (attached as an appendix to this disciplinary section).

10.2. The basis for disciplinary proceedings

The rationale behind Regulation 17 of the World Rugby Handbook is:

- to support and promote the spirit of fair play,
- to protect the health and physical well-being of the players,
- to ensure that incidents of foul play are dealt with promptly and appropriately by independent parties within the Game,
- to ensure that the image and reputation of rugby are not negatively affected.

One of the most important principles of Regulation 17 is to minimise the risk of injury to players in a dynamic and physical sport. The onus is on players to ensure that they do not cause injuries to their opponents and do not expose them to the risk of injury. It is therefore presumed that any conduct prohibited by Rule 9 of World Rugby deserves to be sanctioned. The purpose of World Rugby's disciplinary regime is to sanction and punish non-accidental foul play by players. It is, therefore, the responsibility of the match officials and the Citing Commissioners to ensure that play that has been deemed unsafe, or any act of misconduct, is dealt with during or after the match.

The citing commissioner must pursue any level of violation by summoning the player to appear if he believes that the threshold (test) of the red card has been reached, that is to say, that the referee would have permanently sent the player off the field, if, during the match, he had had at his disposal all the information available to the citing commissioner.

The summons for dangerous play is initiated by the CC. However, it is up to the Legal Officer (Legal Panel / Disciplinary Commission) to determine whether the act was deliberate or reckless, when considering the imposition of a sanction.

10.3. Commitment of the unions to discipline

All unions participating in RA competitions must provide a written certificate to the match commissioner at the team directors meeting which indicates that they have undertaken all necessary verifications and are not aware of the existence of any of the reasons mentioned below that would prevent a player from participating in the competition (match):

- The existence of an ongoing disciplinary procedure concerning an act of foul play or misconduct;
- The existence of an ongoing appeal procedure concerning the reasons mentioned above;
- The existence of a confirmed suspension of the player, resulting from disciplinary proceedings, appeal proceedings or otherwise.

If a union is not able to provide this certificate, it must inform the match commissioner giving the reasons. The match commissioner will take the measures he deems appropriate.

Participating unions undertake to accept and comply with the provisions and disciplinary requirements, and accept that all decisions will be made in accordance with the provisions of this Manual. They acknowledge that they are responsible and will be accountable for the actions and / or omissions of any person officially representing the union.

10.4. The role of the citing commissioner (CC)

The citing commissioner is an independent official appointed by the organiser of the competition. He is responsible for summoning any players committing an act of foul play which would justify a red card sanction.

The CC may also summon players for an act of foul play detected by the match officials (referee, assistant referee or TMO) and which may have been the subject of action taken by the referee.

Teams may bring alleged violations to the attention of the citing commissioner for review within the time frame agreed for the competition.

The CC must:

- Ensure that the notification is submitted in writing and provides sufficient information as to the nature of the incident and the time it occurred.
- Ensure that it is presented within the time prescribed by the rules of the tournament.
- Ask the team manager to provide additional material such as statements, medical reports, videos, photographs etc.
- Inform those concerned of the decision once it is taken.

NB.

- *The parties cannot summon the player they have identified*
- *They can only notify/report an incident to the CC*
- *Notification by the parties does not automatically mean that the opposing player will be cited.*
- *It is up to the CC to assess the notification and make his own decision.*

The citing commissioner may request additional video clips from the broadcaster or from the teams to facilitate any investigation.

He may also interview the victim and other witnesses and obtain medical reports and other evidence, such as photographs of injuries.

The citing decision issued by a citing commissioner is sent in writing to the designated officer of the host union or the tournament organiser responsible for the match. (The time allowed for this may vary depending on the matches and tournaments. Usually, this happens within 12 hours and, at the latest, within 48 hours of the end of the match).

A cited player is usually called to a disciplinary legal hearing where he/she will be required to comply with the citation and, if appropriate, is allowed to explain why no penalty should be applied or why the citation should be rejected.

10.5. Warnings from the citing commissioner

A Citing Commissioner's Warning (CCW) has the same effect as a Yellow Card on the pitch. This means that any combination of three Yellow Cards or CCWs in a tournament requires a disciplinary hearing and that, similarly, any combination of two Yellow Cards or CCWs in a single match also requires a disciplinary hearing.

Once imposed, the CCW is entered into the player's disciplinary record, along with red cards and summons to appear.

NB. Apart from unfair or dangerous play on the pitch, any misconduct during the competition, on and off the pitch, may be subject to disciplinary proceedings (Regulation 20 and Code of Conduct Schedule 1 of the General Regulations of WR).

10.6. Management of competitions

- The host union is responsible for the hotel transport and accommodation of the CC.
- It provides the CC with detailed information on pre- and post-competition arrangements.
- It must ensure the arrival of the CC at the stadium at least 1h30 before kick-off.
- It should allow the CC to verify the location of the box or allocated space, the viewing screen and headphones, if they are available.
- It should confirm that accreditation provides access to all required areas.
- It should confirm the availability of all support staff (messengers, liaison, etc.).
- It should arrange for the CC to meet the team managers.
- It should arrange for the CC to meet the match officials.
- It should provide lists of the match officials.
- The CC should examine the pitch to detect any anomaly.
- After the match, the CC should go to the TV production truck to review any incidents and to obtain any images from broadcasting service providers.
- The CC should check any urgent matters with match officials.
- The CC should obtain statements/evidence about incidents from players, team officials and medical personnel.
- The CC should inform the tournament organiser / match officials of his decision to issue a citation or a CCW.
- The CC should give the citation notification form and relevant materials to the tournament organiser.

10.7. In case of a citation, the match commissioner must:

- Inform the player and the team involved.
- Organise the disciplinary hearing.
- Collect statements from the match officials.
- Gather relevant information regarding the official competition and the disciplinary record of the player.

The host union will provide the CC/OJ with all necessary equipment, such as a meeting room, photocopier, computer, printer, interpreter, etc.

The presence of the CC and/or of the OJ at the technical meeting is essential. This facilitates the exchange and sharing of information with other participants, and allows, if necessary, to specify the terms and conditions (time limits) for implementing disciplinary procedures.

Note: If there are no issues to report, the CC will indicate that their role is completed and that no disciplinary actions will be taken for the match.

10.8. Purpose of collecting information and investigations by the CC

The objective of the CC is to provide as much information as possible to the Legal Officer to assist in any subsequent disciplinary process. The OJ is the sole judge. He examines the depositions and decides whether or not to impose a sanction or if no other action is to be taken. He generally applies the sanctions recommended by WR for Illegal and/or Irregular Play taking into account any relevant aggravating and/or mitigating factors.

Note: The best time to gather the information is while the teams are still on the pitch. Once the teams have left the pitch, or even the stadium, it becomes more difficult to gather information within a reasonable time.

The best practice for collecting data and information is for the match commissioner, in conjunction with the match officials, to coordinate the collection. The team management and medical staff may also help. The referee, assistant referees and the TMO may also have important information to provide.

Statements made immediately after the incident are also preferable, as it adds to the credibility of statements, if they are made while memories are fresh.

10.9. Player statements

It may be necessary to complete the available images with the player's statement (s) so as to provide more information. Normally, the team manager can help and facilitate this. If possible, the CC can talk to the player himself to make sure his own words are correctly reported and not influenced by others.

If a player is **reluctant to provide a statement**, the CC will have to remind him of his obligations, including the provision of information and cooperation with the investigation into the alleged foul play. **Failure to comply will constitute a breach of the requirements of Regulation 17** and may qualify as misconduct.

Players' statements may be a brief and succinct summary of what they claim happened to them or, if they are a witness, of what they have seen, and will be made available to the Legal Officer for examination. The OJ has the right to call the player to testify at the disciplinary hearing. The statement should be a general summary of what they have seen (Use of a mobile phone to record a verbal statement is recommended).

10.9.1. Statement(s) from the victim's teammates

When a team receives a citation, they may wish to indicate that some of their players have observed the event and can provide information. This should be submitted in writing.

10.10. Team doctor's report

The medical report is an important source of information. It should include the details of any impact observed on the player, the effect that the incident has had on him and the likely recovery time. The medical report may also include comments on how the observed injuries match the player's statements.

Medical reports must be completed with photographs taken with a mobile phone.

10.11. Appeal

The player is entitled to all guaranteed rights to a defence. He can represent himself or be accompanied by a member of his union. He will receive a copy of the report(s) and will be informed of the date, place and time of the hearing with the Legal Officer. The auditions can be organised by video conference or phone call.

The sanctioned player may appeal against the decision of the Legal Officer provided that such an appeal is admissible, and made within 48 hours (notice) of the decision of the Legal Officer. The appeal must specify the specific reasons for the appeal and a deposit of €300 must be paid. This sum must be paid at the moment the appeal is filed.

The appeal does not have the power of suspension. The player cannot, therefore, participate in official matches of any level, in his country or abroad, as long as the appeal procedure is not completed.
